Rules for Breeding Requests

DO NOT USE MY HORSES WITHOUT MY PERMISSION

All email breedings are free. A 4-gen pedigree and breeding certificate will be provided once a breeding is approved. These documents are compiled into one word file. If you need this file in a different format, please let me know in your request and I will happily provide it for you. I do not do snail-mail requests.

All horses at Atlantis Equestrian are **AGING**. I do accept non-aging, as well as aging foals. Unless stated otherwise, all of my horses stand in North Carolina, USA and foals will be bred in the US unless specified otherwise.

Mares are allowed 1 natural birth foal per year. I do not allow twin births as they are very rare in horses. If you wish to have 2 foals be bred from the same mare in the same year, please set up an embryo transfer. My mares are allowed 3 embryo transfers every year. You can use one of my mares as a surrogate if she does not already have a natural birth foal in the same year as you wish your foal(s) to be bred. Foals must be at least 4 years younger than their dam.

I will not do an embryo transfer or artificial insemination for any of my Thoroughbreds as this does not follow Thoroughbred breeding guidelines.

Stallions can have an infinite number of breedings every year. All horses that were gelded have preserved semen for up to 25 foals. Foals must be at least 3 years younger than their sire.

All horses retire from breeding at twenty, however I back-breed and breed well-performing mares forward.

No mother-son or father-daughter breedings are allowed

No full sibling breedings are allowed.

I may accept a half sibling breeding if I have few horses listed for a particular breed but I would like to avoid this as much as possible.

Below is a link to a coat color calculator. I try to include color genetics for each of my horses. Please follow color genetics and guidelines as best as possible, I will let you know if there is anything wrong with the color genetics of your foal. I will also generate the color genetics of your foal and include it with your certificate and pedigree.

I will NOT breed any N/O horse to another N/O horse as there is a low probability of the foal surviving.

[COAT COLOR CALCULATOR](#)

I include any known naming guidelines in the outline of each horse breed on their page. You do not have to follow these guidelines, but I would greatly appreciate it if you did.

I do accept fantasy breedings from my non-fantasy equines. Below is a color chart shared by a fellow member on how to breed for color in your fantasy equines. I am not aware of who originally created this document.

FANTASY COLOR GENETICS

I do not have a limit for how many requests you can send at once but please be mindful that this is only a hobby for me. If you do not get an email reply back from me within a week, please email me again as I might have missed your original request.

Please copy and paste the following template into the body of your E-Mail.

Send your E-Mail to reagan.womack@outlook.com

Thanks!

Foal's Name:

Color:

Breed:

Gender:

Model/Mold Information:

*Year Foaled or age if non-aging:

**Desired Sire:

**Desired Dam:

Your Name/Your Farm Name:

Additional comments or questions you might have:

*I will assign an appropriate year for non-aging foals that fits with one of my mares

**If the sire/dam is not owned by me, please include the same information above as well as at least a 3 generation pedigree

***If available, please send a picture of your foal and, if you used your own dam or sire, a picture of it's dam/sire to me (reagan.womack@outlook.com)
